# SPACE DUEL II

The ultimate documentation

## 1.) Introduction

Fix your troubles with lasers shots in this incredible, two players, action game.

Space Duel 2 is a 2 players game for Texas Instruments\* calculators including a lot of fantastic features.

- Ground-breaking graphics
- A debris system
- Lots of parameterizable features (players life, players names... )
- A score table
- Your options are automatically saved
- And much more...

\* only compatible with TI-83, TI-83 plus, TI-84 plus and TI-84 plus silver edition.

## 2.) Installing the game

To install Space Duel 2 on your TI calculator just send the TI Group SD2FR or SD2ENG (SD2FR for the french version or SD2ENG for the english version) with your favourite linking software (personally, I use TI-Connect 1.6). Once the group has been sent to your calculator, ungroup it

(**2nd**[MEM][8][▶][ENTER]). Once extracted, run the SD2INST program (**[PRGM]**, SD2INST, prgmSD2INST **[ENTER]**) to install the needed lists and pics. When the installation is over, the game starts automaticly. The SD2INST program can be supressed or archived to save up some space.

## 3.) Playing the game

To play the game all you need is to launch SD2 ( **[PRGM]**, SD2, prgmSD2, **[ENTER]** ). When you launch the game for the first time, a short animation shows up. Wait until it finishes then press **[ENTER]** to skip the title screen and go directly to the main menu.

## **4.) Troubleshootings**

Supressing or altering LSD2 or the PIC2 may make the game crash. To avoid that, run the prgmSD2INST and then select 2:RESTORE (). If the restoration crashes then you'll have to reinstall the game completely.
