

Thank you for choosing the StatCalc program family!

StatCalc is a program designed for the TI-83+/TI-84+ line of Texas Instruments calculators. These calculators contain some basic statistics functions, yet lack both further statistics capabilities and friendly result output. The StatCalc program family adds these capabilities to your TI-83+/TI-84+, giving you the full statistical power you deserve from your handheld calculator!

The StatCalc program family includes five similar yet distinct products:

StatCalc Pro
 StatCalc AP Edition
 StatCalc Lite
 ZStar
 TStar

Use the following chart to compare these programs' features. More information can be found in each program's additional guide included in this zip file (statcalc.zip).

	Calculate z	Calculate p	Calculate obs	Outlier test	5-Number Summary	Single Var Prob	Geom/Binom Prob	Sampling Distribution	Calculate z*	Calculate t*	Confidence Intervals	Significance Tests	Set decimal places
StatCalc Pro	•	•	•	•	•	•	•	•	•	•	•	•	StatCalc Pro
StatCalc AP		•	•			•	•	•	•	◦	◦	•	StatCalc AP
StatCalc Lite	•	•	•	•	•							•	StatCalc Lite
ZStar		•					•						ZStar
TStar		•						•					TStar

Once again, thanks for choosing the StatCalc program family. We believe that your experience with StatCalc will be productive, positive, and pleasing. The StatCalc program family – your sole solution for secondary statistics calculations.
